

Product Range & Features

The story so far

Vorgee, an Australian owned and managed company, was established in 2005 to fill a gap in the aquatics market – the need for an all-encompassing aquatics company, one which offered products for those getting into a pool for the first time through to the competitive swimmer.

Made up of an experienced team, Vorgee set out to do just that – **create a product for everyone, regardless of whether they purchase for style, performance or price.**

The passion and desire of the Vorgee team to make high quality swimming products and swim gear accessible and easy to understand for all, has led to Vorgee becoming one of Australia's leading and most preferred aquatic brands.

Vorgee is committed to producing quality, innovative and stylish products, and achieves this by -

Utilising only the highest quality materials

Researching the latest in product technologies and advancements

Applying and adhering to strict quality control measures to produce products which meet their expectations

Sourcing only the best, most respected manufacturers

Identifying consumer trends and preferences to guide product development

Injecting bright colours and latest fashion trends into their designs

All products ranged by Vorgee Pty Ltd adhere to applicable National and International Safety Standards.

Goggle Fit Guide

BROAD FIT

Ideal for fitness swimmers who like a wider lens and broader fit. The cushioned, universally shaped, gasket sits and fits securely outside the eye socket.

MID FIT

Ideal fit for fitness swimmers or those who like a firm, but comfortable fit. The cushioned gasket sits and fits securely inside the eye socket.

SNUG FIT

Ideal fit for competitive swimmers or those who like their goggles to have a low profile and snug fit. The gasket sits and fits firmly inside the eye socket.

MASK FIT

Ideal for junior swimmers who like a mask like fit. The soft, silicone mask shaped gasket sits and sits securely on the brow line through to the tip of the cheek.
